CONTENTS

Research Papers

Eicosanoid production by rat cerebral endothelial cells: stimulation by lipopolysaccharide, interleukin-1 and interleukin-6
H.E. De Vries, K.H. Hoogendoorn, J. Van Dijk, F.J. Zijlstra, A.M. Van Dam, D.D. Breimer, T.J.C. Van Berkel, A.G. De Boer and J. Kuiper (Netherlands) 1

Increased deposition of extracellular matrix components in the thymus gland of MDX mouse: correlation with the muscular lesion
T. Quirico-Santos, M.M. Ribeiro and W. Savino (Brazil) 9

Genetic analysis of susceptibility to Theiler's murine encephalomyelitis virus-induced demyelinating disease in the SWR strain
S.M. Nicholson, D.M. Jokinen, M.C. Dal Canto, B.S. Kim and R.W. Melvold (USA) 19

β-Amyloid(25–35) induces the production of interleukin-8 from human monocytes
L. Meda, C. Bonaiuto, G.I. Szendrei, M. Ceska, F. Rossi and M.A. Cassatella (Italy, Austria, USA) 29

Increased levels of soluble vascular cell adhesion molecule-1 (VCAM-1) in the cerebrospinal fluid and sera of patients with multiple sclerosis and human T lymphotropic virus type-1-associated myelopathy
M. Matsuda, N. Tsukada, K. Miyagi and N. Yanagisawa (Japan) 35

Changes in the expression pattern of blood–brain barrier-associated pericytic aminopeptidase N (pAP N) in the course of acute experimental autoimmune encephalomyelitis
J. Kunz, D. Krause, J. Gehrmann and R. Dermietzel (Germany, Switzerland) 41

Arecoline a muscarinic cholinergic agent conditions central pathways that modulate natural killer cell activity
S. Demissie, C.F. Rogers, N.S. Hiramoto, V.K. Ghanta and R.N. Hiramoto (USA) 57

Trimethyltin increases interleukin (IL)-1α, IL-6 and tumor necrosis factor α mRNA levels in rat hippocampus
W.E. Maier, H.W. Brown, H.A. Tilson, M.I. Luster and G.J. Harry (USA) 65

Importance of HLA-DRB1 and DQA1 genes and of the amino acid polymorphisms in the functional domain of DRβ1 chain in multiple sclerosis
M. Zamani Ghabanbasani, X.X. Gu, M. Spaepen, C. Vandevyver, J. Raus, P. Marynen, H. Carton and J.J. Cassiman (Belgium) 77

Lytic effector cell activity and major depressive disorder in patients with breast cancer: a prospective study
G. Sachs, S. Rasoul-Rockenschaub, H. Aschauer, K. Spiess, I. Göber, A. Staffen and C. Zielinski (Austria) 83

Functional role and sequence analysis of a lymphocyte orphan opioid receptor
W.P. Halford, B.M. Gebhardt and D.J.J. Carr (USA) 91

Psychological stress and immunological responsiveness in normally cycling, follicular-stage women
A.R. Caggiula, C.G. McAllister, K.A. Matthews, S.L. Berga, J.F. Owens and A.L. Miller (USA) 103

TAP2 polymorphisms in Australian multiple sclerosis patients
B.H. Bennetts, S.M. Teutsch, R.N.S. Heard, H. Dunckley and G.J. Stewart (Australia) 113

Postmortem delay effects on neuroglial cells and brain macrophages from Lewis rats with acute experimental allergic encephalomyelitis: an immunohistochemical and cytochemical study
C.J.A. De Groot, J.-W.M. Theeuwes, C.D. Dijkstra and P. Van der Valk (Netherlands) 123

Molecular cloning of the coding sequence of an interleukin-2 receptor α subunit cDNA in murine brain
J.M. Petitto and Z. Huang (USA) 135

Sigma-1 receptors modulate functional activity of rat splenocytes
Y. Liu, B.B. Whitlock, J.A. Pultz, S.A. Wolfe, Jr. (USA) 143

Interleukin-6 production by U373 MG, a human astrocytoma cell line: different pathways involved in substance P and lipopolysaccharide activation
C. Palma, F. Urbani and S. Manzini (Italy) 155

In vivo clonal expansion of T lymphocytes specific for an immunodominant N-terminal myelin basic protein epitope in healthy individuals
A. Shanmugam, C. Copie-Bergman, S. Caillat, J.F. Bach and E. Tournier-Lasserve (France) 165

Cloning of myelin basic protein-reactive T cells from the experimental allergic encephalomyelitis-resistant rat strain, LER
E.P. Blankenhorn, S.A. Stranford, A.-M. Martin and W.F. Hickey (USA) 173

Expression of cell adhesion molecules in inflammatory myopathies
D.S. Tews and H.H. Goebel (Germany) 185

Short Communications

Junctional region of the myelin basic protein-specific T cell receptor β chain in mice
B. Kalman, H. Alder and R.L. Knobler (USA) 195

The relationship of TAP1 and TAP2 dimorphisms to multiple sclerosis susceptibility
R.B. Bell and S. Ramachandran (Canada) 201

Author Index (Vol. 59) 205
